

## Recommended Reading – Other Foreman Leadership Books

- **Mark Breslin** is a consultant, motivational speaker and Author who goes around the country putting on his Leadership training and development for all types of Construction Industry companies and workers.
  - His small, short books are written very simply in a direct style that is easy to read and understand:
  - **Survival of the Fittest** is a great book geared to apprentices and to teaching this material at JATC 1<sup>st</sup> year apprenticeship classes.
  - **The Five Minute Foreman** has a lot of practical information in it for someone working as a Foreman – things to keep in mind and the dos and don'ts.
  - **Alpha Dog and Million Dollar Blue Collar** are two others
  - All are available on his website or cheaper on Amazon for \$9.99 each.
  - Check out Mark Breslin's website: <https://breslin.biz/>
- **Jason C. McCarty** is a union electrician from Vancouver, Washington. His 2011 book covers all aspects of the Foreman's skills. He teaches this material every year at the Electrical Training Alliance's NTI.
  - **Construction Leadership Success**: The Construction Foreman's Definitive Guide for Running Safe, Efficient, and Profitable Projects
    - \$20.00 on Amazon
  - **Effective Leadership Skills** for Construction Field Leaders, 2017
- **David Winpisinger** has written two books based on his many years of experience running work and working as an electrical foreman.
  - **Strategies for a Foreman's Success**: A Training Manual for the Electrical Construction Foreman
  - **So You Wanna Be a Foreman**: An Electrical Construction Foreman's Guide to Efficient Labor Management
  - Available for \$20.00 each on Amazon
- **Dr. Perry Daneshgari** is the author of the 2005 NECA publication that looked at the differences between union and non-union Contractors
  - **Agile Construction for the Electrical Contractor** - His ground breaking book is a guide to improving operating systems and efficiencies for construction companies and supervisors with a clear set of practical tools, processes and tips for improving productivity.
